II. Education and Training:

Participated in several courses and seminars, training in emergency medical care, disaster medicine ...etc. examples of the courses are below:

II. 1. Main undergraduate and post-graduate studies:

1. Diploma - medical doctor in general medicine 1989

Institute of Medicine and Pharmacy, Cluj Napoca, Romania

2. Certificate of specialist in Anaesthesia and Intensive Care

Ministry of Health in Romania

3. Master Degree - European Master in Disaster Medicine (EMDM), 2003

*Free University, Brussels, Belgium
Piemonte University, Novara, Italy*

II. 2. Post-graduate studies and continuous education during 1990 -2016

1. Course on "Emergency Manager: An Orientation to the Position"

US Department of Homeland Security, Federal Emergency Management Agency (FEMA) Emergency Management Institute

2. Course on "Radiological Emergency Management"

US Department of Homeland Security, Federal Emergency Management Agency (FEMA) Emergency Management Institute

3. Course on "Introduction to Incident Command System"

US Department of Homeland Security, Federal Emergency Management Agency (FEMA) Emergency Management Institute

4. Course on "Introduction to Incident Command System (ICS 100) for Healthcare / Hospitals"

US Department of Homeland Security, Federal Emergency Management Agency, Emergency Management Institute.

5. Course on " Flood Mitigation Basics for Mitigation Staff"

US Department of Homeland Security, Federal Emergency Management Agency (FEMA) Emergency Management Institute.

6. Course on international civil nuclear emergencies

US Army National Guard, Maryland, USA

7. Course for chief emergency physician for management of interventions involving multiple casualties in accidents

(After graduation chosen as a lecturer in the course and this course last year participated in several countries including Romania, Austria, New Zealand and Greece.)

*ITACCS (International Trauma Anaesthesia & Critical Care Society - USA)
The course was held in Copenhagen, Denmark*

8. Course on response to chemical accidents

Strathclyde Fire Brigade - Scotland, course held in Romania and Scotland

9. Intensive Course on emergency medicine

European Community- Erasmus Hospital Brussels - held in Varna, Bulgaria

10. Course on war surgery and medical triage

Norwegian Army Medical Service

11. air medical transport Course

Norwegian Air Ambulance Service

12. Disaster Medicine Course

The Society of Emergency and Disaster Medicine in Romania (SMUCR) and Univ. of Medicine and Pharmacy, Targu Mures (International course in collaboration with the Fire Brigade of Paris, University of Creteil and the French Army Medical Corps).

13. Rescue Operations Commander (C.O.S)

Fire Brigade of Paris

14. Paediatric Advanced Life Support

The Society of Emergency and Disaster Medicine in Romania (SMUCR) and University of Medicine and Pharmacy, Targu Mures (International course in cooperation with Chicago Memorial Hospital, USA)

15. Advanced Trauma Life Support

The Society of Emergency and Disaster Medicine in Romania (SMUCR) and University of Medicine and Pharmacy, Targu Mures (International course in cooperation with the Royal Infirmary of Edinburgh)

Projects / Grants Mngement - participation in European projects:

Participant of several European projects as an expert, consultant or coordinator that:

1. I SEE project, as an expert, financed by the European Union under the FP7

Free University of Brussels coordination of multinational consortium. Project area is disaster medicine.

2. Project POSDRU - Ministry of Labour / 86 / 1.2 / S / 63 827 "enhanced curriculum and interactive forms of teaching and learning for specialties. study program licensed from faculties of medicine" beneficiary University of Medicine and Pharmacy "Iuliu Hatieganu" Cluj - Napoca - participated as Project Manager .

3. Project POSDRU - Ministry of Labour / 81 / 3.2. / S / 58 809 "integrated intervention Professionals for collective accidents and disasters "beneficiary SMURD Foundation - participated as process responsible - specialist expert.

4. Multinational Capacity for Telemedicine in disaster response , Project under the NATO Science for Peace program, as co-director of the program from NATO. (2014-2017)

Volunteer activity:

Began volunteering in first aid during 1979 in Nablus. During medical studies in Cluj became volunteer of the Surgical Clinic Scientific Circle and later became part of the emergency intervention team of vascular surgery under Professor Aurel Kaufman. Later, after graduating in 1990, began developing a voluntary crew for emergency medical intervention in Cluj. Latter, in September 1990, the initiative was moved to Targu Mures where under the support of Professor Mircea Chioreanu and Col. Liviu Micu the initiative of founding and developing SMURD and later the first emergency departments began.

Worked as volunteer until 1998 when I first signed an employment contract with the County Emergency Hospital of Targu Mures.

continued development of SMURD, the system spread to other counties until the year 2006/2007 when I started working nationally at the Ministry of Health, after a political decision to implement the system nationally was taken. In August 2007 I accepted the position of Undersecretary of State for Health to implement the model developed in Targu Mures in the rest of Romania.

In 2006, I founded the "For SMURD Foundation" as sole founder, in order to support the development of SMURD and the emergency medical system in

Romania. The foundation had a large number of projects that included the development of the virtual training center in disaster medicine in Targu Mures as well as the purchase of an airambulance plane that was donated to the Aviation INspectorate of the Ministry of Internal Affairs to provide free transportation of critically ill patients. The foundation's projects have exceeded 10 million Euros in support of the Romanian emergency system. My own activity within the foundation is unpaid voluntary one.
